

# KULP KNEWS

THE OFFICIAL NEWSLETTER OF KULP ROOFING & CONSTRUCTION INC.

MARCH 2022

## Measuring Roofs

Although we still prefer to pull a ladder off our trucks and measure by hand, the industry has come a long way with satellite software, allowing us to measure in any weather.

One of our preferred tools is GAF QuickMeasure. This complete aerial roofing measurement tool delivers accurate, automated roof measurements in less than one hour for single-family homes and features fully interactive 3D modeling abilities. These models are available as a wireframe and design view featuring GAF products customized to the project.

So now you know how we get measurements in inclement weather.

## The most advanced GAF shingle we can offer

As a Master Elite contractor, we feature GAF's most advanced shingle, the Timberline HDZ.

Shingle manufacturers have been fighting blue-green algae stains for years. But GAF has changed the game with their proprietary Time-Release Algae-Fighting Technology which has specially engineered capsules infused with copper microsites that release copper steadily, over time, for long-lasting algae-fighting power.

[LEARN MORE ABOUT THIS UNIQUE PROCESS HERE](#)

Its protection is so strong, it allows GAF to offer a 25-Year StainGuard Plus Algae Protection Limited Warranty against blue-green algae discoloration on many of their most popular products, including Timberline HDZ Shingles.

Interested in putting this new technology to use? Call us at [215-538-0618](tel:215-538-0618) for a free estimate today.

**MOVING AT THE SPEED OF QUALITY:** To some it may sound strange, but to us at Kulp we believe there is no better way to describe our organization. Our President, Phil, and his wife and Vice President, Lindsey have instilled a belief within the organization that we MUST always put the customer first and ensure we leave them with a quality product. If this means a job takes a minute, an hour, a day, a week, or a month, we must always move at the speed of quality to ensure that any project can be taken care of accordingly in a well-mannered fashion.

Having always prided ourselves on installing top grade products that offer the highest level of performance, we believe in doing it right the first time and genuinely care about the well-being of our customers.

Whether you are looking for a new roof, siding, windows and doors, or just a simple repair, do it right the first time and call Kulp Roofing & Construction, Inc as we will continue to be moving at the Speed of Quality.

# The Importance of a Roof Tune-up

Staying on top of your roof (no pun intended) can save you money, pain, and inconvenience for years to come.

1. **Maintaining clean gutters is the key to ensuring you don't incur water damage and rot to your roof decking or even foundational issues in the future.**
2. **Trimming trees and limbs that could be rubbing on your roofing surface can alleviate early shingle failure and potential leaks and problem areas.**
3. **Keeping your landscaping under control is paramount to allowing light and heat to reach your roof's surface. The more moisture that sits on your roof the better the potential is for moss and mold buildup which is detrimental to a roof.**
4. **After a cold, windy winter or severe storm, shingles can break and crack exposing nails and (nail) pops leading to small unwanted leaks.**
5. **Cracked or deteriorating pipe vents are common causes of small leaks that lead to big problems.**

There are many items on a roof that need periodic attention to help alleviate bigger issues in the future. Our team of experts look for these types of issues and more, making sure to bring them to your attention. Give us a call at [215-538-0618](tel:215-538-0618) to schedule your roof tune-up today and offer yourself some peace of mind.

# Exterior Renovations MADE EASY

Have you ever considered taking on a home exterior remodeling project, but have heard what a hassle it can be? You're not alone. A lot of our satisfied customers had the same exact initial thought. Good news though. This experience doesn't have to be difficult when you put your trust in the right home improvement company.

Our Estimators/Consultants can easily walk you through this process from beginning to end removing any complications or reservations causing you undue stress.

A few things that often hinder people from moving forward are financial concerns, material ability, and probably the greatest concern, how do I know if the siding products I chose actually look good on my home?

Kulp Roofing & Construction, Inc. is different in that we not only provide a tenured, professional crew, resulting in superior installations, but we work with multiple lending institutions that offer our clients the most aggressive rates for your project. Plus, as an added feature we can show you a variety of visual options to help in making your decision on material easier.

Currently, we can secure clients 0% financing for home improvement project for 18 months along with terms that extend all the way up to 84 months. Our team of Estimators/Consultants can explain these options and many more to you allowing you to choose the best option for you and your project.

The dreaded material availability issue has been plaguing anyone in this industry. Thankfully working with Kulp Roofing & Construction, Inc. makes the experience smoother. Our company works directly with several national distributors who continually update us on the latest material options. If the product you desire is out there chances are through our relationships, we can secure it for your project.

Lastly you may wonder what if this product doesn't look good on my home. This is one of the biggest questions our team encounters in the field. To make this process easier for our clients, we have partnered with a company that allows us to build a three-dimensional (3D) model of your home.

You and your Estimator/Consultant will be able to change many options of the exterior of your home including roofing, siding, gutters, windows, accessories, and more to allow you to see what combinations work best; ensuring you'll LOVE the end result.

At the end of the day, we want you to love not only the end result of your home exterior remodel, but the process of working with us. Our goal is to do it right the first time. Therefore, you can be sure we will be with you from beginning to end so you are confident in this big decision.

Give us a call today and allow us to help you start the process. It's simpler than you may think.

**Free 100' of 5K seamless gutter with any roof purchase exceeding \$5,000\***

**5% off all siding installation with a roof purchase of \$10,000 or more**

**10% off all Gutterglove microMesh PRO and seamless gutter installations**

**5% off previously unsigned contracts not to exceed \$500**
